LILLIE'S LOCK OPENED IN ONE MINUTE!

NEW YORK, September 2, 1864.

F. TILLMAN, Esq., 318 Battery street, Bet. Commercial and Clay, San Francisco.

DEAR SIR: WE NOTICE AN ADVERTISEment in your daily papers respecting the "security" of the "Lillie" lock. We are aware that you well understand this lock, and, of course, will not allow yourself to be annoyed by such representations. We have just sent for one of our men at the factory, and he, in our presence, opened one of Lillie's best safe locks, after it had been locked and the combination turned on,

By one Blow of the Hammer

Against the knob on the outside, and thereby breaking the cast-iron bolt on the inside.

The whole time occupied in opening the lock was about ONE MINUTE. We send you this lock that your friends may not be deceived by false representations, etc. Respectfully, etc.,

A. E. TILTON,
WM. McFARLAND.

GLOUCESTER, March 26, 1864.

Messrs. TILTON & McFARLAND, Safe Manufacturers, Boston, Mass.

Gentlemen: From representations made by Mr. Lillie, I was induced to purchase one of his

So-called "Fire Proof Safes,"

On the 18th of February last, a fire occurred in our block which destroyed a number of buildings, and our own with the rest. We trusted our books, papers and all in the safe. After the fire the so-called "safe" was taken from the ruins, and on opening it we found that

Everything was Destroyed.

We send you the safe, with what is left of the papers, and you will see that not one of them is legible or strong enough to sustain its own weight. Having the curiosity to know how our neighbors fared in this fire, we noticed McKenrie & Hardy just opening their safe (TILTON & McFARLAND'S make), and its contents were found to be

In Perfect Condition.

This led us to further investigation, and we found to our astonishment that from the large amount of combustible material in Messrs. McK. & H.'s cellar—such as lard, pork, etc.—their safe was subjected to a much greater heat than that of our own, we being in the clothing business and had but little in the cellar. There was another of Lillie's safes here subjected to the same fire, faring, however, no better than our own.

Very respectfully, Your obedient servants,
[Signed:] GEO. L. CHESBRO & CO.

ASSASSINATION OF PRESIDENT LINCOLN AND SECRETARY SEWARD.

J. Wilkes Booth, the Assassin of
PRESIDENT LINCOLN.
John Survalt, the Assassin of
SECRETARY SEWARD.

DEATH OF THE PRESIDENT.

WASHINGTON April 14th. '65.

President Lincoln and wife, with other friends, this evening visited Ford's theatre for the purpose of witnessing the performance of "Our American Cousin." It was announced in the papers that General Grant would also be present, but that gentleman took the late train of cars for New Jersey. The theatre was densely crowded, and everybody seemed delighted with the scene before them. During the third act, and while there was a temporary pause for one of the actors to enter, a sharp report of a pistol was heard, which merely attracted attention, but suggested nothing serious until a man rushed to the front of the President's box waving a long dagger in his right hand and exclaiming: "*Sic semper tyrannis!*" He immediately leaped from the box, which was in the second tier to the stage beneath, and ran across to the opposite side of the stage, making his escape amidst the bewilderment of the audience, from the rear of the theatre, and, mounting a horse, fled. The screams of Mrs. Lincoln first disclosed the fact to the audience that the President had been shot, when all present rose to their feet, rushing towards the stage, many exclaiming: "Hang him!" The excitement was of the wildest possible description. Of course there was an abrupt interruption of the theatre performance.—There was a rush towards the President's box, when cries were heard, "Stand back," "Give him air," "Has any one stimulants?" On hasty examination it was found the President had been shot through the head, above and back of the temporal bone, and that some of the brain was oozing out. He was removed to a private house opposite the theatre. The Surgeon General of the army and other surgeons were sent for to attend to his condition. On examination of the private box, blood was discovered on the back of the cushioned rocking-chair on which the President had been sitting, and also on the partition and on the floor. A common single-barreled pocket pistol was found on the carpet. A military guard was placed in front of the private residence to which the President had been conveyed, an immense crowd being in front of it, all deeply anxious to learn the condition of the President. It had been previously announced that the wound was mortal, but all hoped otherwise. The shock to the community was terrible At midnight, the Cabinet, Messrs. Sumner, Befoy, Farnsworth, Judge Bates, Governor Oglesby, General Meigs, Col. Hay and a few personal friends, with Surgeon General Barnes and his immediate assistants, were around the bedside of the President, who was in a state of syncope, totally insensible, and breathing slowly.—Blood oozed from the wound at the back of the head. The Surgeon General exhausted every possible effort of medical skill, but all hope was gone. The parting of his family with the dying President was too sad for description.

The President and Mrs. Lincoln did not start for the theatre until fifteen minutes after eight o'clock. Speaker Colfax was at the White House, and the President stated to him that he was going, although Mrs. Lincoln had not been well, because the papers had announced that General Grant was to be present, and as Grant had gone North, he did not wish the audience to be disappointed. He went with apparent reluctance, and urged Colfax to go with him, but that gentleman had made other engagements, and, with George Ashmun, of Massachusetts, bade him good-bye.

When the excitement at the theatre was at its wildest hight, reports were circulated that Secretary Seward had also been assasinated; on reaching this gentleman's residence a crowd and military guard was found at the door. On entering it was ascertained that the reports were based on truth. Everybody there was so excited that scarcely an intelligible word could be gathered.—The facts are substantially as follows: About ten o'clock, a man rang the bell and the call having been answered by a colored servant, he said he had come from Dr. Viede, Secretary Seward's family physician, with a prescription, at the same time holding in his hand a small package of folded papers, and saying, in answer to a refusal, that he must see the Secretary as he was intrusted with particular directions concerning the medicine. He insisted on going up, although repeatedly informed that no one could enter the chamber. He then pushed the servant to one side, walked heavily toward the chamber, and was met by Fred Seward, of whom he demanded to see the Secretary, making the same representation which he did to the servant. What further passed in the way of colloquy is not known, but the man struck him on the head with a billy, severely injuring the skull, and felling him almost senseless. The assasin then rushed into the chamber and attacked Seward, a Paymaster in the United States Army and Hunsell, a messenger of the State Department, and two male nurses, disabling them. He then rushed upon the Secretary, who was in the same room and inflicted three stabs in the neck, but severing, it is thought and hoped, no artery, though he bled profusely. The assasin rushed down stairs, mounted his horse and rode off, before an alarm could be sounded, and in the same manner as the assassin of the President. It is believed the injuries of the Secretary are not fatal, nor those of the others, although both the Secretary and Assistant Secretary are very seriously injured.

WASHINGTON, April 15th—4:10 A. M.

The President continues insensible and is sinking. Secretary Seward remains without change Frederick Seward's skull is fractured in two places, and he has besides a severe cut on the head. The attendant is still alive, but hopeless. Major Seward's wound is not dangerous. It is now ascertained, with reasonable certainty, that two assassins were engaged in the horrible crime, Wilkes Booth being the one that shot the President, and the other a companion of his whose name is unknown, but whose description is so clear that he can hardly escape. It appears from a letter found in Booth's trunk that the murder was planned before the 4th of March, but fell through then, because his accomplice backed out until Richmond could be heard from. Booth and his accomplice were at a livery stable at six o'clock last evening, and left there with horses about ten o'clock or shortly before that hour. It would seem they had been seeking their chance, but for some unknown reason it was not carried into effect until last night. One of them has evidently made his way to Baltimore; the other has not yet been traced.

EDWIN M. STANTON.

CHICAGO, April 15th.

President Lincoln died at twenty-two minutes past seven this morning. Contradictory reports are in circulation in regard to Seward's condition. As soon as we get anything reliable we will inform you.

LINCOLN CERTIFICATE.

Encamped upon the shore of Berwick Bay, our lines embraced the hospitable house of Dr. R——, an English planter, at whose table the officers always found knives and forks for them. At dinner there, I met the brilliant Madame P——, well known in former seasons as a fashionable *habitue* of Newport, where she owned a *cottage ornee*.—Still handsome and stately, this widow, with an ample fortune in sugar lands and their concomitant living chattels, dwelt luxuriously upon a romantic bend of Bayou Teche, above the town of Franklin, in St. Mary's Parish. She professed staunch loyalty to the Union, and assured us that her negroes were so much attached to her that they voluntarily returned to labor after having dispersed to the woods and swamps, or mingled with the advancing army of General Banks. I could easily divine that this sparkling lady might find it for her interest to remain the *chatelaine* of her own castle. With affability, tact, and *savoir faire*, to say nothing of good business knowledge, as her Amazonian weapoury, she would be able, doubtless, to keep her household gods and goods inviolate under martial *regime* of both red and white roses. Too much a clever woman of the world to cry "A plague on both your houses," she might give smiles as subsidies and purchase safeguards by soft words for North and South alike. Much easier, and by far more polite, than the usual abandonment of house and lands to the "tender mercies" of remorseless confiscation boards.

It was on the simple negro servants of the pleasant Madame P—— that sundry graceless scamps of our "grand army," played divers pranks of knavery. Our forces bivouacked near her lands in passing up the Teche, and shortly after they proceeded on, the lady one day noticed that her sable handmaids were all busied with great washing of garments and bleaching of cotton, and fine linen to immaculate snowiness. Lawns were bestrewed with lawn; every bush had a rag on it; the hedgerows were festooned with all fibrous particles of apparel that could be whited by the power of alkalies. From morn to night the blacks were in hot water at wash tubs. The kitchen tables smoked with heaps of unmentionable articles, glossy under the calender and smoothing-iron.—What could this sudden storm of cleanliness import? the mistress marvelled, and a confidential tire-woman at length enlightened her.

"You see, missy, we gwine to hab our white robes all ready when de messenger come."

"Who is the messenger, Lucille, and why must you have white robes ready?" querried Madame P——, with I know not how many visions of Millerite preparations suggested to her fancy.

"Why, missy, dar am a high ossifer gwine to come yer to Tuckapow from Massa Abe Linkum hissef, missy. He'm gwine to write de cullud people in de great book."

"What nonsense are you telling me, Lucille?"

"It am rale troo, missy; no mistake dis yer time. We's all done got de stiff-cats."

"Got what, Lucille?"

"Got de stiff-cats, missy, wid massa Linkum's picter ob hisself on dem. We's sure to git de goold an' silver back when de high ossifer done come to Tuckapow."

"Gold and silver back! What do you mean, Lucille?"

"O, missy, you know we's done 'mancipate dis yer minit, but isn't gwine to leave Tuckapow.—We is prefer to stay wid our kind missy."

"Well, tell me about the gold and silver, and why you are washing all these clothes, child."

"'Kase it am ordered to be, missy. We's to go all 'rayed in white robes, like de lambs, an' 'tan' all togeder out yer by de bayou. Sartin shore, missy, de high ossifer am gwine to come up in de biggest ribber boat, wid all de flags flyin', and we is to holler out right smart for de Unum——"

"And the gold and silver, Lucille?"

"O, we's gwine to have all de goold an' silver done paid back agin, and ebery cullud pusson am to git a house an' garden, and dar'm not gwine to be no more workin' for oberseers, only jes' fur reg'lar wages——"

"Indeed! But what do you mean by getting your gold and silver back, child?"

"Lor' sakes, missy, I isn't tole you about dat yit; an' I declar' I isn't done showed you de Linkum stiff-cat."

"No, indeed you have not, Lucille."

"Dar, m'm, de stiff-cat. De Linkum sogers gib us all one 'fore dey done marched away."

Saying this the maiden drew from her dusky bosom a scrap of paper. It was creased and discolored, but Madame P—— contrived to decipher the printed contents. It was simply a square of pictured tissue paper, bearing a lithographed head on one corner, and a soap-maker's advertisement following—in fact, the common imitation of a bank certificate which we often see pasted on the lid of a fancy soap box or the end of a match package.

"Dat yer's the rale picter of Massa Abe Linkum," cried Lucille, with dancing eyes. "De sogers done gib us all stiff-cats like dat yer"

"And you gave the soldiers your money for this Lucille?" querried Madame P——.

"Sartin, missy. De sogers done tell us dat Massa Linkum want to borroy all the goold an' silver in Tuckapow jes' fur three mont's, till de high ossifer done come up de bayou. Den, Lor' bress you's dear heart, missy, we is gwine to hab all our names took down in de book for Massa Linkum, an' we's gwine to be 'clar'd 'mancipated fur ebber an' ebber. Den we is git back all de goold an' silber, an' de high ossifer—spec' he must be Massa Linkum's own chile—he gibs all de culled people de houses an' de gardens——"

"Well, Lucille, how much money did you all give to the soldiers?"

"Done gib dem all our sabin's, missy—all what we sell de chickens fur, an' all we done an' got for de moss, long 'fore de war."

"Lucille, you are a great goose, and neither you nor your silly people will ever see your money again."

"Lor' bress you heart, missy, we'se got de stiff-cats!"

"Well, child, let us see some more of your precious 'stiff-cats,' as you call them. I suppose Annie has one."

"Yes, missy, an' Molly, an' Cassy, an' Phemy, an' eberybody. We is all s'kure."

But poor Lucille learned to her great chagrin, and that of "eberybody" among the simple-minded community, that they were all the "victims of misplaced confidence." Their white robes were never called into requisition, and they waited vainly for the advent of a "high ossifer" with greetings from "Massa Linkum." The whole thing was a wicked swindle of the poor blacks by heartless Federal soldiers, who had succeeded in obtaining upwards of eight hundred dollars in specie, assuring their victims that the loan was for Mr. Lincoln, who wished to see if the colored people had confidence in him. They were all 's'kure' by 'stiff-cats,' which the rascals said were signed by Lincoln and bore his portrait on their face. The "temporary accommodation" was to be repaid by a "high officer" of the President, who was coming to the Attakapas country loaded with money, and empowered to give each negro creditor his freedom and a farm. Meanwhile, while awaiting the messenger, they were to purchase garments of spotless whiteness, and keep them ready for the occasion. These injunctions given with due solemnity to their dupes, the thieves decamped with their booty, and, as I subsequently learned, repeated the swindle on a smaller scale at divers halting placess of our army. Col. Wilson's regiment received the name of having furnished the instruments for these sharp operations, but the perpetrators never were identified. The fraud was of a piece with many gross deceptions practiced on the trusting negroes, for which a few salutary hanging examples were notably needed in the Gulf Department.

NAVIGATING THE COLORADO.

The complete success of Captain Thomas E. Trueworthy in ascending the Colorado River to within four hundred miles of Great Salt Lake City, in the steamer *Esmeralda*, towing a barge and transporting one hundred tons of freight may be considered an era in the trade of Utah and Arizona Territories. Until the accomplishment of this attempt of Captain T., the public has been assured, and generally made to believe, that the Colorado was totally unnavigable above Hardyville, which is about five hundred miles above the mouth of the river. It has been pressed upon the public and the Government, that appropriations by the latter were absolutely necessary to make the channel navigable. A large amount of freight having accumulated at the mouth of the river, and great difficulty being experienced in efforts to get it transported to its destination, Captain Trueworthy was induced by Mr. Samuel Adams to test the character of the river's channel, by running a steamer and towing a barge loaded up the river as far as possible. Arriving at Hardyville, they were assured that the river could be navigable only thirteen miles further. Hardyville is two hundred and eighty miles above La Paz. Up to the former place the *Esmeralda* steamer had progressed, towing a barge one hundred and twenty-six feet in length, at a time when the river was at its lowest stage. The current was reported very swift and difficult, and the channel but twelve or fifteen feet in breadth. The steamer was twenty-eight feet in breath, but she was hauled through easily, the channel proving to be from thirty-five to thirty-eight feet wide, and fifteen feet deep. "Explorer's Rock," fifty-three miles above, was said to be another impassable barrier, fifty-four feet in length. This is the point where Lieutenant Ives' Expedition was brought to a halt. Both steamer and barge passed above it before the terrible barrier was discovered—a rock a few inches below the surface. On each side the channel was from ninety to a hundred feet wide, and ten feet deep, the current running only about two knots. The steamer ascended ten miles further, to within twenty five miles of Callville, and could probably have reached the latter place without difficulty, and only stopped short of it because the warehouse had not been completed and the parties who were to have built it had been induced to leave through misrepresentations by interested persons. Between Hardyville and Callville more water was found than from the mouth of the river to the former place, a distance of five hundred miles. Callville is only three hundred and ninety miles from Salt Lake City, the road between those two places being a natural highway, over which goods may be hauled at all seasons. The success of the expedition proves that vessels of one hundred and twenty-five tons can navigate the river at all stages for six hundred miles from its mouth. This result may be considered as the turning point in an extensive trade which will henceforth pass through that route. It opens an outlet and inlet for the Salt Lake trade, which is probably destined to supersede the former overland transportation from the Missouri, long, tedious, and expensive, and it will give to the producers of Utah an available and profitable market for their productions. For at the mouth of the river, ships of the largest tonnage can find a good and safe harbor. At present, there is a new storeship the Victoria, of seven hundred tons burthen, ready to receive and discharge freight. It is well for our merchants and traders interested to look into this new avenue for their enteaprise. Arizona, as well as Utah, is fast growing into importance. Its mines have already attracted quite a population. The only thing wanted is a comparatively cheap mode of supply and ready access. Its mines are undoubtedly rich and extensive. What has heretofore been supposed one of the most sterile of countries, is proven to possess abundance of excellent agricultural lands, find timber, and good water. At a time not far distant, it will contain a large population, and require a large supply of goods. They who judiciously start in to take advantage of the facilities now offered, and thus anticipate the future demand, will undoubtedly realize a generous reward for their enterprise.

EXECUION IN JAPAN.—The two men said to have been implicated in the murder of Major Baldwin and Lieut. Bird were executed on the 16th of December, and it is hoped that through their revelations the other murderers may be detected. The authorities endeavored to keep the matter quiet, to prevent a crowd, but it somehow oozed out on the preceding evening, and a large number of foreigners assembled. A correspondent of the North China Herald gives the following sketch of the proceedings: "The door opened, and a man bound with cords and blindfolded was led through the crowd and made to kneel down on a mat placed before a hole dug to receive his blood and head. The attendants drew his clothes down off his neck and gave a few preliminary brushes with the hand upwards, as if to stroke all the hair one way. The executioner was one of the Tycoon's soldiers, who had purchased a new sword blade and had asked permission to do the duty, and thus try his weapon. After securing the linen around the handle and carefully wetting the blade, he took up his position deliberately on the left side of the victim and raising the sword high above his head with both hands, let it fall with a swoop which severed the neck completely. The head was held up for the inspection of the chief officer present, who signified his approval—'I have seen'—and it was thrown into the hole. The other man was carried in, and there appeared to find some little difficulty in getting him to kneel in a convenient positon; but when his knees had been properly adjusted and his neck laid bare, the other executioner, who had also petitioned that he might fill the office, advanced, took his place by the prisoner's side, and, drawing the sword over his head with an elegant flourish, inflicted the blow as effectually as his predecessor." These men are believed to have been members of an association sworn to assassinate foreigners whenever occasion offers. They were traced through having entered the house of a countryman and extorted money and food by threats, exclaiming that they were on their way to Yokohama to punish foreigners. The proclamation posted up by the authorities after their death mentions this crime as the ground for their execution, saying nothing about the murder; but it is understood that they, together with others of their fraternity, were concerned in it.

THERE appears to be as large an amount of carelessness on the part of the letter-writing community in this country as in Europe. The report of Postmaster Dennison shows that 3,580,325 dead letters were received during the past year—over 9,000 a day. Many of these letters contained money, deeds, bills of exchange, draughts, cheques, jewelry and other valuables. Some of them were misdirected, others not directed at all, others unstamped, and others only partially directed.—Thousands of these dead letters were returned to the writers, but the great majority had to be destroyed.

A WELL known thief in New York is said to be worth $100,000—profits of stealing.

ASSASSINATION OF THE PRESIDENT.

Any attempt so write or speak upon the subject suggested above illustrates the utter vanity and emptiness of poor words. "How is the strong staff broken and the beautiful rod!" The details of the execrable and nameless crime need not be related. They are already familiar to every ear, and with bitter pain have burnt themselves deep into every loyal mind: how the assassin stealthily approached the private box of the President at the theater, and entering, with the true spirit of "chivalry," discharged the deadly weapon behind the back of his victim; how he leaped upon the stage, and with drawn dagger gleaming like lightning before the paralyzed audience, passed out at the back entrance, mounted his horse and disappeared in the solemn darkness. We can hardly yet realize that this terrible tragedy has been performed. Enacted but last week, it seems to us like some strange and bloody tale, handed down to us by tradition or romance from the ancient ages of darkness, lawlessness and barbarism. Nineteen centuries ago, Cæsar, the great leader and champion of the common people, was assassinated by the slaveholding aristocracy of Rome; three centuries ago, Henry IV. of France, the great champion of Protestant freedom in Europe, was assassinated in the streets of Paris; but it has remained for the nineteenth century and our own civilized and christian land to furnish an example of a similar crime, which stands preëminent for atrocity and infamy upon all the pages of history. This crime might have been anticipated. It is perfectly consistent and natural. The tragedian enacted, justly and truly, on that terrible stage, the spirit and genius of this damnable rebellion. It is the same spirit that prompted a lesser assassin to approach Charles Sumner behind his back, and with a bludgeon strike the helpless victim bleeding to the floor of the Senate Chamber. It is the same spirit that massacred, with untold barbarity, defenceless Union prisoners at Wagner and Fort Pillow. It is the same spirit that has torn the flesh from the limbs of our slaughtered heroes, and made rings and playthings of their bones. It is the same spirit that has herded Union prisoners like swine in the horrid pens of Belle Isle and Andersonville, until from nakedness, exposure, vermin and hunger, their fingers and toes have dropped from their bodies, their eyes run from their sockets and the light of their intellect become extinguished utterly and forever. All the incidents of this rebellion, from its first inception to its crowning act—the assassination of the President—are but consistent and well-fitting links of one great chain of crime. What atonement would the execution of a Booth make for all this? Away with his worthless and miserable life! His mere execution will no more compare with the punishment which justice demands upon the authors and leaders of this rebellion, than the tears which fell from the eyes of the strong man, when he heard of the assassination, will compare with the waters of the great deep. "Vengeance is mine, saith the Lord." But God works through instruments. Let us hope and pray that Andrew Johnson and the men who control the Government may be *willing* instruments in His hands to visit that vengeance upon all the leaders of this rebellion which their crimes against life, country, humanity, civilization, liberty and God, demand. Let no more of these creatures be turned loose upon their *honor*. O, spirits of our slaughtered heroes! O, shade of the murdered Lincoln! save us and our country from the sickly, mawkish, disgraceful sentimentality which would turn loose among honest and loyal men, upon their *word of honor*, assassins, and traitors worse than assassins! The lamented Lincoln was forgiving and merciful to traitors—they rewarded him with assassination! Let us be stern and just, and expect to be rewarded with a regenerated country and the blessing of a God who "taketh vengeance" and who made a hell for traitors and assassins.

We do not purpose to dwell upon the character of Abraham Lincoln. It is useless to speak of his spotless integrity, his devotion to the right, his kindness to the poor and needy, and his charity for all. With no advantages of early education, with no powerful patrons or friends, he fought his own way up to position and fame by strong common sense, and a masterly and logical intellect. None of our Presidents, except the first, can be compared with him. He possessed more intellect than Washington, and a more amiable disposition, while he was not inferior to the Father of his Country in any of the public or private virtues. His fame will grow brighter and brighter, his character will become grander and grander with the lapse of time and the criticisms of the coming ages. Of all the men who have trod the earth how few, oh, how few, are worthy to be ranked, like our murdered President, among the sons of the celestial gods!

Let us be glad that he lived long enough to see the substantial end of the rebellion, and victory everywhere crowning the banners of the Republic. He will have glorious news to tell when he takes Ellsworth, and Baker, and Lyon, and all the long list of martyred heroes by the hand on the other side of the river! They will receive their old leader with many acclamations; but the world has lost its purest statesman, and twenty millions of people shed the tears of heartfelt sorrow over the grave of a Chief Magistrate they had learned to honor, respect and love.

LATEST NEWS.—Dispatches dated April 20th bring intelligence of the recovery of Mr. Seward so far that he was able to sit at the window and view the funeral procession of the President. Mosby and his outlaws had surrendered to Gen. Chapman. The War Department has offered a reward of $50,000 for the arrest of Booth, and $25,000 for G. A. Alzerat and David C. Harold, the accomplices of that assassin. The city of Mobile was occupied by Gen. Granger's corps on the 12th. Gold in New York on the 20th, 138.

SANITARY BALL.—The ladies of Gold Run and Cañon Creek, will give a ball for the benefit of the Soldier's Aid Society at Gold Run on Thursday, April 27. From the well-known reputation of the ladies of the places named all who desire to enjoy themselves can rest assured that every opportunity will be afforded to do so at the time mentioned. Our citizens, and particularly those who feel an interest in the Ladies Festival to come off on the first of May, should attend the party at Gold Run, the object of which is so worthy and commendable, besides giving all an opportunity to cultivate those neighborly courtesies at once pleasant and agreeable.

LETTER from our Mexico correspondent crowded out this week. Will appear in our next.

OBSEQUIES OBSERVED.

Never, since the settlement of our town have the people displayed such a unanimity of sentiment as in the late demonstration of mourning on Wednesday last. According to the published notice the people from every adjacent camp flocked to our town on the morning of Wednesday, anxious to participate in the sad rites and express their sorrow with their fellow-citizens, for the great National loss sustained. The procession formed in front of the Dutch Flat and National hotels under the direction of the Marshal, E. L. Bradley, to the number of about nine hundred persons, and proceeded around the square to the theater where most of them were seated, when Rev. Mr. Johnson read a portion of the Sacred Scripture, and offered a feeling and heart-felt prayer to the throne of grace, after which Rev. Mr. Northup was introduced and proceeded to deliver a most eloquent and patriotic address, completely carrying captive the feelings of the audience; and notwithstanding the solemn and impressive occasion on which they met, frequent bursts of applause testified that they approved of the sentiment expressed. After the oration the brass band played a most solemn dirge, which caused many to shed tears of sorrow.

The Committee of Arrangements having previously adopted the following preamble and resolutions expressive of the sense of this community for the great loss sustained in the demise of the Chief Magistrate of the Nation, requested that the same be read by the Rev. Mr. Johnson:

WHEREAS, The All Wise Ruler and Disposer of the nations of the earth has seen fit to permit the removal of the Chief Magistrate of the United States by the hand of the assassin; and also, at the same time, and by a like bloody hand, to permit an assault upon the life of the Sec'y of State, and his son, the Assistant Secretary of State; and

WHEREAS, This deed of infamy is immeasurably aggravated by coming, as it does, so immediately after the recent terms of surrender, couched in the language of courtesy, moderation and magnanimity, which were granted the defeated commander of the forces in rebellion, together with the officers and army of Virginia under his immediate command;

WHEREAS, Our late President, and likewise the Secretary of State, in all their official and private intercourse, made known their strong desire for peace on terms as liberal to the insurgents as comported with the honor and dignity of the law; and

WHEREAS, this crime, connived at and inspired by the authorities in rebellion, is a blow inflicted upon the majesty of this august nation in the person of her President and other high officers, and through them upon the constitutional liberty of the world; therefore, be it

RESOLVED, By this sad and mourning assembly,

First, That we bow in meekness and submission to the wisdom of Almighty God, which permitted this heavy stroke of grief and calamity, by which the President of this Republic, ABRAHAM LINCOLN, is removed from his high office, to which an unanimous, an admiring, and a grateful people had but just returned him for a second term of four years.

Second, That this last achievement of the assassin, in view of the century, of civilization and the progress of human affairs, and the position of our nation among the nations of the earth, is without even an approximating precedent or parallel in the annals of crime; and yet, black as it is, and atrocious as it is, to us it seems but the seal manual, the fitting autograph of the slave power, written in the blood of LINCOLN, endorsing and proclaiming to an astonished world the unspeakably execrable and damnable character of that institution.

Third, That since we have had such appalling proof in the history of the Slave States, both preceding and during the war, that concession, compromise and kindness are utterly lost upon and totally misunderstood by at least the leading spirits of the South, it is now manifest to the world, that a due regard to the *impartiality of justice, to the majesty of the nation, to the devotion and bravery of our army and navy, to the endurance and heroism of our long-suffering prisoners of war, to the patriotism that parts with loved ones and pays taxes at home, to the hopes of the down-trodden of earth*, nay, in the name of all these, and of honor, and of virtue, and of constitutional liberty, IT IS DEMANDED that the thrice forfeited lives of the yet unsubmissive leading conspirators shall pay the just penalties of treason and rebellion, and that the accursed institution which breeds and trains beings of such cool, calculating demonism shall be utterly extirpated, and every vestige of it scattered as chaff before the wind.

Fourth, That henceforth the watchword of American patriotism will be, "*America for Americans!*" and, by *Americans* it will include *all* men born on native or foreign soil who accept in their hearts our Declaration of Independence, our Constitution and our laws, and who are inspired by the spirit of American Liberty, while it rigidly excludes *all*, both natives and foreigners in whose hearts there is avowed sympathy with domestic traitors or foreign foes, and this definition is not limited or modified by the odious and unrighteous distinction of color.

Fifth, That we, as become good citizens, hereby pledge our earnest support and our hearty co-operation with the present chief magistrate, humbly desiring that he may make thorough work with the task so auspiciously carried forward by his late predecessor, and that he may be guided and sustained by an All Wise Providence in his new relations and perplexing duties.

Sixth, That we offer our unfeigned condolence, in common with our sympathising country, to the stricken family of our lamented President, who also lose in him the loved husband and father and a worthy exemplar of the domestic virtues.

After the reading of the resolutions, Col. C. A. Tweed arose and offered the following resolution, which was unanimously adopted by the entire assembly rising in silence:

Resolved, That the foregoing resolutions be adopted by this assembly, and that the same be furnished to the Dutch Flat ENQUIRER and the *Stars and Stripes* for publication.

The choir then sung the following beautiful words arranged and put to music by the Rev. J. A. Johnson, of this place:

LINCOLN'S GRAVE.

Disturb not his slumbers, let our Lincoln sleep,
'Neath the boughs of the willows that over him weep;
His arm is unnerved, but his deeds remain bright
As the stars in the dark vaulted heaven at night.
Oh, wake not the statesman; his conflicts are o'er;
Let him rest undisturbed on fair Sangamon's shore;
On the river's green border, so flowery dressed,
With the hearts he loved fondly, let our President rest!

Awake not his slumbers, tread lightly around!
'Tis the grave of a freeman! 'Tis Liberty's mound!
Thy name is immortal; great deeds ye have done;
True son of Columbia! *lamented Lincoln!*
Oh, wake not the statesman; his conflicts are o'er;
Let him rest, calmly rest, on his dear western shore,
While the Stars and the Stripes of our country shall wave
O'er the land that can boast such a patriot's grave!

The audience then received the benediction and departed for their respective homes, deeply impressed with the solemnity of the entire ceremonies. We are glad to announce that there were no *scenes* enacted in our town.

THE inauguration of Andrew Johnson as President of the United States, took place on the 15th instant, Chief Justice Chase administering the oath of office. The ceremonies were very impressive, and the new President is said to have had a high sense of the responsibilities taken upon himself.

J. WILKES Booth, the murderous assassin who has acquired an infamous notoriety that eclipses every deed that has ever disgraced the annals of crime, is said to be a son of Junius Brutus Booth, the celebrated tragedian. He is a native of Baltimore, and is about twenty-eight years of age, and has surpassed in infamy and brutality in crime every criminal that it has pleased an Allwise Providence to disgrace his footstool from the time of the flood to the present day. That he will be caught, there is not a doubt, and when he is apprehended, a new punishment should be invented, for he is too damnable for hell and too far removed from the mercy of heaven to ever receive an acknowledgment of being created in God's image.

PRESIDENT LINCOLN.

One of the most diabolical, fiendish, infamous crimes that has ever shocked the civilized world was committed in the city of Washington on the night of the 14th of the present month. The President of a great nation was deadly stricken by the hand of an assassin. On the morning of the 15th, the telegraph shocked the entire people, from the uttermost limits of Maine to the extreme borders of the Pacific coast, with the astounding and heart-piercing intelligence that ABRAHAM LINCOLN, the unanimous choice for Chief Magistrate of a free people, had been foully, cowardly murdered. Our feelings are too much wrought upon to express a tithe of the utter and everlasting indignation felt by us for all who brought about such a damnable act. That the leaders who instigated this hell-born rebellion concocted and carried out this murder there can be no doubt; that they have, by their cold-blooded, sanguinary, infamous, action deprived themselves of all sympathy which might otherwise have been felt for them, no man with a spark of honor will for a moment deny. President Lincoln had, in the magnanimity of nature, given the leaders and people of the South unmistakeable evidences of a spirit of conciliation and forbearance; such as should have disarmed *any* people of all malice, not more savage and lost to every feeling of humanity, justice and honor to themselves. That they have thrown themselves entirely out of the pale of mercy hereafter is certain, and we very much mistake the American people if there will be any further hesitation on their part to meet out to those who persist in trying to break up the government. It is now time that *all* men should *act*, if they desire to maintain the principles for which our noble President was battling, and for the maintenance of which he was murdered,—by giving those who have up to the present time attempted to educate such desperate minds as J. Wilkes Booth and Joseph Survalt to the commission of crimes as has caused a thrill of horror to pass through the breasts of all honest men, the just punishment merited by their crimes. There is no gainsaying the fact that the repeated teachings of the Copperhead press has culminated in the atrocious crimes of the murder of Mr. Lincoln and the attempted slaying of Mr. Seward, and that too, while the Government was throwing its protecting arm around the adders that were preparing to give the fatal sting. We are in favor of no leniency on the part of the constituted authorities to those who express sympathy for, and defend the cause of traitors. Every man who desires safety and a good Government should use every exertion to bring these fiends to a quick and speedy punishment.

Mr. Lincoln was born in Hardin county, Kentucky, on the 12th day of February, 1809, and was at the time of his death fifty six years, two months and three days old. In 1832 he served as Captain in the Black Hawk war; in 1834 he was elected to the State Legislature of Illinois, and was afterwards re elected three consecutive terms. In 1837 he commenced the practice of law in Springfield, Ill., and soon took a prominent stand among the most able of the profession; in 1846 he was elected to Congress and took his seat the succeeding year. In 1860 he was nominated by the Republican party for President, was elected and took his seat in March, 1861 which the leading Secessionists at the South made an excuse for inaugurating a civil war. We are all aware with what consumate skill and statesmanship he has conducted the affairs of the nation during the critical period he has had the helm of State; how a grateful people, with unheard of unanimity and singleness of purpose combined to render honor to him as a faithful executor of their trusts, embalming his memory in the hearts of his countrymen, which shall live till time shall cease in the minds of all good men, as a christian, patriot and statesman, the like of whom will only be acknowledged with the reverence deeds of the immortal WASHINGTON, whose actions he so closely imitated.

MEETING AT IOWA HILL.

A meeting of the citizens of Iowa Hill was held on Saturday evening, April 15th, for the purpose of giving expression to the feelings of grief and indignation which pervade the minds of the community caused by the cowardly assassination of our loved President, Abraham Lincoln. J. Rathburn was called to the Chair, and J. B. Stevens elected Secretary. Feeling and patriotic addresses were made by S. R. Case, P. H. Sibley, Rev. Mr. Webb, W. D. Lawrence, J. Rathburn and others. The following resolutions, offered by Mr. Sibley, were unanimously adopted by a rising vote of the audience:

WHEREAS, We the citizens of Township No. 7 Placer county, Cal., have this day received the sad intelligence of the wanton and diabolical assassination of the worthy Chief Magistrate of these United States, Abraham Lincoln, and Wm. H. Seward, our worthy and respected Secretary of State of our Government, with feelings of pain and sorrow, such as never visited our nation before; therefore,

Resolved, That we as a nation have met with an irreparable loss, which cannot be made good, under any circumstances, at the present time; that our country has been bereft of its two fixed stars, in point of intellect, statesmanship, truth and justice, by the hands of assassins.

Resolved, That, although our helmsmen have been taken from us, we should never for one moment shrink from our duty to our common country and ourselves, but with redoubled energy rush to the rescue and lend aid and support to the powers in authority, to preserve, protect and defend our glorious Union.

Resolved, That in Andrew Johnson, our worthy Vice President, who, by virtue of the Constitution, is now President of the United States of America, we recognize a true, loyal patriot, a man capable of preserving, protecting and defending our bleeding country, with the aid of our truly loyal and able Congress elect.

Resolved, That when we leave this house, we will all make it our duty from this time henceforth to use our influence, both privately and publicly, to secure the establishment in this our nation of the policy and measures brought forward and advocated by our late and honorable Chief Magistrate, as the means of restoring peace and unity in this our loved country.

Resolved, That a copy of these resolutions be forwarded to the Dutch Flat ENQUIRER for publication.

J. RATHBURN, Chairman.
J. B. STEVENS, Sec'y.

AND HAPPINESS

NOT A FEW

Of the worst disorders that afflict mankind arise from the corruption that accumulates in the Blood. Of all the discoveries that have been made to purge it out, none can equal in effect *HELMBOLD'S COMPOUND EXTRACT OF SARSAPARILLA.* It cleanses and renovates the Blood, instills the vigor of health into the system, and purges out the humors which make disease. It stimulates the healthy functions of the body, and expels the disorders that grow and rankle in the Blood. Such a remedy, that could be relied on, has long been sought for, and now, for the first time, the public have one on which they can depend. Our space here does not admit of certificates to show its effects, but the trial of a single bottle will show to the sick that it has virtues surpassing anything they have ever taken.

Two tablespoonsful of the Extract of Sarsaparilla, added to a pint of water, is equal to the Lisbon Diet Drink, and one bottle is equal to a gallon of the Syrup of Sarsaparilla, or the decoction as usually made.

The above Extracts are prepared on purely scientific principles—in *Vacuo*—and embody the full strength of the ingredients entering into their composition. A ready and conclusive test will be a comparison of their properties with those set forth in the U. S. Dispensatory.

HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YOUNG, in 1850. In this age of deceit and charlatanism it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number nor the manner of directing your letter. Consultation Office, 540, Washington street, San Francisco. no5-3m

MEDICAL CARD.—Success is said to be the criterion of merit. If this is so, Dr. Doherty is not an exception to the rule. Of the many physicians who advertise to cure the particular branches to which he has devoted his particular study, none has attained that wondrous and general practice which daily attend at his office. The great Ricord, of Paris, specially devoted his attention to the particular branch of Medicine denominated Specific and Chronic. Dr. Doherty has determined to do the same. Read his advertisement in another column, and the sworn statement of cures.

UNITED STATES SENATOR.

The following statement in relation to "the coming man," was recently made by the San Frrncisco *Bulletin's* Washington correspondent, the truth of which, however, is very doubtful, as are, indeed, most of the statements emanating from that individual:

By the way, is there not a serious error in the California supposition that Conness and Gov. Low have joined hands to secure the United States Senatorship for the Governor as successor to Mr. McDougall? I am well aware that such has been the general understanding among California politicians coming East since Low's election, and that they state, in corroboration, the fact that he has thrown off many old political friends who had claims upon him, avowedly because he could not afford to offend Conness. If the Governor *has* any bargain for the Senatorship, such as is supposed, he may as well prepare himself to be cheated, for we have here, decided indications that Conness intends to bring B. B. Redding to Washington as his colleague, if he can effect that purpose—although he is also preparing to use Fred. Billings' name for the Senatorship, if he does not feel strong enough to beat whoever is the generally accepted Union candidate upon a square fight. The Governor probably won't believe this, so you need not show it to him. Perhaps, however, if he will glance over the history of the "only sober Senator" he will discover that his usual course is to discard, as soon as he can dispense with them, those whom he has used; in short, that he fully recognizes the maxim that "political gratitude consists of a lively appreciation of favors *to come*," and that it is waste of raw material to reward favors past in a case of a man who has in himself any elements which *may* become the elements of power. *Nous verrons.*

The San Andreas *Register* makes the following comments upon the above, and it would be beneficial were "our only sober Senator" to follow the suggestions made therein:

We would like to know what Mr. Conness has to do with electing a United States Senator for the people of California? Let him look after the interests of California in the Congress of the United States, and the people of this State through their Legislators will take care of the next Senator, and see that the proper man will be sent to fill the place of McDougall. There is altogether too much said about what Mr. Conness is going to do, and about who he is going to have in Congress to represent the interests of California. Just as if he had the exclusive control of the people of this State, and can dictate to them who shall be their next Senator. Let him look after the good of this State in his place in Congress, and leave wire-working, for some particular favorite of his, whom he can control to his own advantage, alone, and he will do better than he has yet done, and the people will be better satisfied with him. We do not like to see one man made a God, especially when he lacks the qualities which belong to the "gods." It is the disposition to want to dictate, and have the exclusive control of the affairs of the people, to accomplish selfish purposes, that we object to. It is a disposition we do not like, and cannot sanction. Mr. Conness is our Senator in Congress. It is his business to represent the wishes of the people of this State there, and to work for what shall be for the benefit of the State, and urge upon Congress the adoption of such measures, for the government of this coast as shall be for the best interests of our people, and work no hardship to other sections of the country. It is none of his business who our next Senator shall be; provided the people are satisfied, and a man of ability, integrity, and genuine worth, is elected, to fill the position. It may be that we should be in favor of making the same man Senator, that Mr. Conness would, but we do not like the idea of his using dictatorial powers, and of telling the people who shall, and who shall not be their officers. Such a disposition savors too much of the "rule or ruin" principle. There is a class of men among us, who have just sufficient calibre to make cunning politicians, but have not the ability necessary for statesmen. Such men if circumstances happen to throw them into a position where they can exercise a little influence, are not satisfied to use that influence for the good of those who gave them their positions, but use it to gain their own selfish ends, regardless of the wishes of their constituents, and they seem to regard themselves as great men, to whom all others should do homage, and whose word should be obeyed. Being actuated by purely selfish motives, they never favor the election to office, of men possessed of more ability than themselves, least they will be left in the background, and will not be able to take the lead, and have things all their own way. If Mr. Conness will attend to the interests of his constituents in Congress, and see that no legislation detrimental to California is made, the people of this State through their legislators, will take care of the next Senatorship.

THE REFORMS IN RUSSIA.—The Emperor of Russia has sent to the nobility of Moscow a rescript in reply to the recent address of that body in which he says: "The reforms which have been prepared, and those already realized, sufficiently prove my solicitude for the improvement, as far as possible, of the political organization of the country. The past must be a guarantee for the future. No subject has a right to anticipate my resolutions, nor is any class legally entitled to speak in the name of others. Such violations of the law can but retard my plans. I am fully convinced that I shall never again meet with such obstacles on the part of my faithful nobility."

THIS CELEBRATED INSTITUTE has enjoyed on this coast an uninterupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world, and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES and IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength and vigor from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venerial Poison. The mildest forms, by re treating to the blood, hold ever over the one afflicted, the sword of destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, *recognized as the most fatal medical enemy to man,* combining with the Venerial, doubles in dangers. Those who have been treated with that pernicious *mineral poison* are not cured: the disease has only assumed a new form.

Do not be satisfied with partial cures

that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine. WHEN PERFECT CURES can be obtained by consulting a physician whom long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all diseases entrusted to the Doctor's care, PERFECT, SPEEDY and PERMANENT

Cures are Always Guaranteed,

In syphilis and its adjuncts; Gonnorhœa and its accompanying diseases; and all disorders of the Bladder, Kidneys and prostrate; Seminal Weakness; Diseases of the Heart and Lungs; Dyspepsia; Indigestion, Impotency; Incipient Consumption, and all diseases of the urinary organs, in either sex, cure always warranted, OR NO PAY REQUIRED at the PRIVATE

SEMINAL WEAKNESS OR SPERMATORROEA.

The young man who experiences that growing weakness in his muscular and mental organization should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion, unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lacivious dreams accompanied by growing deafness, loss of muscular power, and numerous other symptoms of disorganization, the positive traces of that most terrible and destructive of all diseases, Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence toward a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principal of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that the one who looks to him for so much of her happiness, is a victim of his evil, and an innocent companion of his punishment. He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult, then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands of sick rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, *without hindrance from business, change of diet, or fear of exposure.*

Do not forget the address. See below.

IMPORTANT TO FEMALES.

When a female is in trouble or afflicted with disease, and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor, understanding how imperatively necessary these requirements are, feels called upon to interpose, and by the attention of the afflicted to the fact that he has been a *Professor of Obstetrics and Female Diseases* for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who can feel and sympathize with and befriend them in trouble—one in whose secrecy and the utmost confidence can be placed. *Consultation, by letter or otherwise, Free.* See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constanly accruing testimonials of their efficacy declare them to be pre-eminently superior in their action. No lady should be without these Renovating Agents. None genuine unless procured at this office.

QUICK CURES AND SMALL CHARGES!

The Electropathic Institute,

645 Washington st, San Francisco.

ESTABLISHED FEBRUARY, 1860, BY AN ASSOCIATION OF SCIENTIFIC GENTLEMEN FOR CURE OF DISEASES AND THE SUPPRESSION OF QUACKERY

Truths for the Afflicted.

This splendid establishment was inaugurated in February, 1860, by an association of Scientific gentlemen, that there might be a Medical Establishment in San Francisco, where the afflicted could find scientific and honorable, as well as humane treatment. *Outrageous Quackery* had so long run rampant over afflicted humanity that all confidence was being lost in the Medical Profession, and it was time that there should be an Institute where the afflicted could apply with the certainty of honorable and Scientific treatment. And the result has thus far exceeded the most sanguine expectations of its founders.

Thousands have been made to rejoice in returned health, who had been trifled with by the numerous vampires that abound upon this coast, the chief of whom has been obliged to close out and leave the country; but still there are some left of whom the afflicted should beware.

The basis of the treatment at the Institute is the Electropathic System. The Physician and Surgeon who has been a Professor in one of the best Medical Colleges in America, and who has made a special study of Chronic Diseases for the last fifteen years, is thoroughly qualified to treat by medicine, and will warrant a perfect and permanent cure in the shortest possible time. All long-standing cases of disease no matter what may be their nature, give way under the course of treatment pursued at the Institute, and the result is perfect health and a strengthened constitution where it has been injured.

It would be useless to enumerate the diseases, as it would be occupying space to no purpose. Every nameable complaint to which humanity is liable can be cured by the Faculty at the Institute.

No mercury is used upon any consideration. All medicines prescribed are vegetable, and in cases where the patient can remain in the city, and wishes to be treated by Electricity, no medicines will be used. All medicines are electrized, which makes them much more active, and destroys all nauseous taste, making them as palatable as wine.

The Directors wish to speak of specialities more extensively than of other complaints, because empirics have used more deception about them than they have about the regular troubles of the human family. And first on the list is that dreadful malady denominated Seminal Weakness, or Spermatorrhœa, a complaint which not only affects the body with pain and lassitude, making life a burden, but affects the brain, creating *Insanity.* It drives more men to the mad house than all other diseases added together. By the Electropathic System this terrible trouble gives way, and the hitherto emaciated victim is made to rejoice in perfect health.

Next upon the list is Venereal, in all of its terrible forms and phases.

It is impossible to paint this disease in colors sufficiently terrible to do it justice. It is the most awful disease to which the human family is liable, and if not arrested when active, making him a loathsome mass of living corruption. It is also one of the most insidious diseases in the world. While the exterior shows no symptom, the horrible disease is sapping the foundations of life, preparing to attack its vital parts, as soon as the patient shall by some indiscretion weaken the system. Reader, if you have ever had this awful disease in any form whatever, call at once at the Institute, and the physician there will examine you and tell you if you have any of the virus in your blood. In such cases consultations are always gratis, and should you have any of the dreadful complaint about you, a cure will be warranted in a short time, or no charges will be made for services.

Strictures.

This terrible affection, which badly affects the nervous system as to prevent sound and health-giving sleep, should be attended to in its early stages, or an operation both painful and dangerous will have to be resorted to. It is usually first indicated by darting pains in the parts, but very light and hardly noticeable at first, increasing gradually, until they become troublesome, sometimes accompanied by slight irritations in the passage of urine. A *quick cure* is easily performed at the Institute if early application is made.

To Females.

Your delicate organizations should be treated with great scientific care. At the Institute you will find a kind physician, who can at once discover your disease or trouble, and sympatize with you in your affliction. Should you be irregular you can get relief, no matter what may be the cause. You need not fear to call on account of the delicacy of consultation for the utmost secrecy will be insured at all times, and the resident physician will treat you in the most honorable manner, giving you all the assistance and advice, both medical and surgical, that you may require. *Private apartments, especially for Ladies.*

Preventive.

Dr. J. H. Josselyn's celebrated Preventive for married ladies can be obtained only at the Institute.—Price, Ten Dollars.

Warranted to prevent pregnancy. Can be used without any inconvenience, and is good for one year if directions are followed.

This Magnetic Preventive is not injurious, but is conducive to health, and can be used without the knowledge of any one but the party using it.

To sum up, there is no place where the medical profession is practiced in the State of California, wherein the same amount of scientific attainments are employed, and, consequently, where the afflicted can be so well treated, and be as sure of a cure, as at the Electropathic Institute, 645 Washington street, (south side,) a few doors below Kearny

Reader, if you are sick and need medical assistance call there before employing any one else, and judge for yourself. You will there find the best consulting, as well as the best operating talent in the State, together with the only Electropathic Instrument that can be depended upon in the curative process.

Medicine sent to all parts of the State, Oregon and Nevada, upon the receipt of a letter describing the case.

All letters must be directed to J. H. JOSSELYN, M. D., Resident Physician, Electropathic Institute.

Dr. H. JOSSLYN has no connection with any other establishment or Institute in this city.

All letters answered with promptness and pleasure, and the utmost secrecy observed. Address

READ THE FOLLOWING:

Dr. Doherty—Dear Sir: I feel my health so fully restored, that in common gratitude, I believe I should make you some written acknowledgment for your valuable services—particularly so as your fee was small for the work performed.

I arrived in this city from the East about one year ago, and was then suffering from an old case of Gleet, complicated with Stricture. Being a stranger in this city, and believing those Doctors who gave such positive assurances of success were necessarily the best (some of whom have a large number of titles), I placed myself in their charge and continued under their treatment until I had lost nearly all hope and a considerable sum of money.

I wish to say now that you are the sixth Doctor I have employed, and the only one that has ever done me any service. My Gleet is wholly cured, the Stricture is all removed, and my general health is better than it has been for years.

In conclusion I would say to the many unfortunates who require medical advice, if you have any doubt as to whom you may employ, ask Dr. Doherty for my address and call and see me. (I keep store in this city.) My experience may save you many dollars.

I would also add that in the early stage of my disease, I used a large amount of the preparations advertised as an infallible cure for Gonorrhœa, Gleet, etc., but never derived any benefit from them.

I am, Doctor, very truly yours,
L—— H——.

SEMINAL WEAKNESS—A SWORN-TO CERTIFICATE OF MOST REMARKABLE CURE OF SPERMATORRHŒA.

A desire to benefit humanity, and a feeling of gratitude to Dr. W. K. Doherty, alone induces me to make this statement. For many years I have been afflicted with that fearful disease known as "Spermatorrhœa," or Seminal Weakness, the result of self-abuse, but till 1855 experienced but little trouble or inconvenience. In that year, however, I had Seminal weakness to an alarming extent, which was soon followed by the usual alarming symptoms, as weakness of the back and limbs, pain in the head, dimness of vision, nervousness and general debility. My mind, too, was afflicted to such an extent as to seriously impair my memory; my ideas were confused and spirits depressed. I was averse to society, had evil forebodings and self-distrust, and was entirely unfitted for any of the duties of life. From 1855 to the summer of 1862, I employed the very best medical talent I could find, and spent several hundred dollars, but in no instance obtained more than temporary relief. I had about concluded there was no relief for me in this world, but seeing Dr. Doherty's advertisement, I thought I would call and see him, as he charged nothing for consultation. I had an interview with Dr. Doherty at his office, in Sacramento street, and his fee for treatment was so reasonable, I determined to try him, though I did not expect much benefit from his treatment. On the 5th of December last I placed myself under his care; in one week I found myself very much improved, and now, after five weeks' treatment, I feel myself thoroughly cured of all my troubles and in the enjoyment of the best health. Hoping that my experience may be of benefit to others similarly afflicted, I subscribe myself

To Females.

When a female is in trouble, or afflicted with disease, as weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular power, palpitation of the heart, irritability, nervousness, extreme urinary difficulties, derangement of digestive functions, general debility, vaginities, all diseases of the womb, hysteria, sterility, and all other diseases peculiar to females, they should go or write at once to the celebrated female doctor, W. K. Doherty, at his Medical Institute, and consult him about their troubles and disease. The Doctor is effecting more cures than any other Physician in the State of California. Let no false delicacy prevent you, but apply immediately and save yourself from painful sufferings and premature death. All Married Ladies, whose delicate health or other circumstances prevent an increase in their families, should write or call at Dr. W. K. Dougherty's Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arranged that he can be consulted without fear of observation.

To Correspondents.

Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. Doherty on their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that their communications will be held most sacred. Dr. Doherty takes this opportunity of observing, that all letters are only opened and replied to by himself, and the latter as promptly as possible.

If the case be fully and candidly described, the usual fee of ten dollars enclosed, (by express or in a registered letter) personal communication will be superseded, as instructions for diet, regimen, and the general treatment of the case itself (including the remedies), will be forwarded without delay, and in such a manner as to convey no purport of the letter or parcel so transmitted.

☞ Consultation at the office FREE. By letter, $10. Permanent cure guaranteed, or no pay. Address,

W. K. DOHERTY, M. D.,
